CHOICE WILD PLANTS

Collected from Their Native Haunts by
HOPEDALE NURSERIES

J. W. GRIESEMER, Proprietor

Hopedale, Illinois

And Our Chain of Collectors, Extending Over the Entire Country

FLOWERS for EVERYBODY

THIS list should have been revised several years ago. Prices have changed so much, but it has been out of the question to do it, owing to other duties, incident to building up our new plant and home. We beg your pardon for sending the old list so long, with advises that its prices were no longer correct. Since making the old list, the cost of collecting many items has more than doubled. We are making prices as low as we well can, consistent with safe business.

TERMS

PRICES are for stock sent when collected. Often it may be stored till wanted, at little or no additional cost.

Packing free at these prices, except when shipped out of season, making it necessary to crate tops. This is charged at cost.

Five at 10 rates, 50 at 100 rates.

If you want stock in **thousand lots**, ask for prices. Most items may be supplied in 1,000 lots.

many in 10,000 and some in 100,000 lots. Larger lots are usually shipped from point of collection.

We are **COLLECTORS**. Some items we store and can do out of season. Others we can get from located beds or old tops out of season, but generally speaking, the prices named are for the plants collected in season, and we are often obliged to ask more money for them out of season, if they may be had. Many may not be had out of season.

LANDSCAPISTS—We are often asked for special prices by landscapists. Last season this was thrashed out at the National Convention in Detroit. It seems that the National Convention of Landscapists had also passed on this subject, in that they were employed by their clients, and got their pay from them, thus making it contrary to business ethics for them to ask for us to grant any allowance. Where Landscapists are dealers also, buying direct and paying for stock themselves, they are entitled to the regular trade prices.

CHOICE WILD PLANTS

HOPEDALE NURSERIES, HOPEDALE, ILLINOIS

PLEASE STATE HOW WE SHALL SEND ITEMS—By far the most items go by express. Small lots are sometimes cheaper parcel post. Very heavy lots are cheaper by freight, but if weather is hot, freight is not safe. In event no shipping instructions are sent, we use our best judgement, but assume no risk.

As a rule, plants are best planted when they ripen and are ready to collect. This means that mixed orders are usually sent in several installments, as they mature and are collected. If this is not satisfactory, we can usually store earlier ripening sorts till others are ready, if requested.

LARGE LOTS are usually shipped from point of collection, to save time and one carriage and packing costs.

MISTAKES—We make them, so do our collectors. We are anxious to correct them on your advise, with reasonable proof. We insist on our customers getting a square deal. Our heaviest customers have bought of us from ten to eighteen years.

COLLECTORS are a very peculiar set of people. Many of them are lovers of nature, but minus as business people. A good, faithful promise to get stock does not always assure getting the goods. We remind our patrons of this fact that they may the better bear with us in our disappointments. Sudden and severe hot spells, droughts, freezes or floods make large lots of plants entirely disappear. Failures are not always the collector's fault.

DON'T FORGET that our regular business is the Nursery—30 acres of it, general line of Fruits and Ornamental Trees, Shubs, Evergreens and Perennials. Many carloads of them. Remember us in these. Forty-eight page descriptive catalogue; new price list with it, free for the asking.

WE COLLECT WILD PLANT SEEDS

We collect a considerable lot of seeds. We do not store them. Orders must come in BEFORE THEY RIPEN, that they may be collected when it may be done at least cost. Send for list of wants in seeds early.

NURSERYMEN AND DEALERS—If you buy in sufficiently large quantities to merit it, we allow a special price to you. Send list of wants for quotations.

If our regular customers use THOUSAND LOTS (500 or up) ask for prices on the amount you can use. We will quote promptly.

HOPEDALE NURSERIES

H O P E D A L E N U R S E R I E S

J. W. GRIESEMER, PROPRIETOR

EXPLANATION OF ABBREVIATIONS: H. or Here, means we get most of our supply in Central Illinois; M. or Mich., in Michigan; T. or Tenn., in Tennessee; N. C., in North Carolina; N. Y., in New York; S. D., in South Dakota; I. or Ind., in Indiana; G., in Georgia; N. G., or Nur., is Nursery Grown. Many items may come from several points. These are the most common points where we get stock. Larger lots are usually shipped from point of collection.

OTHER PERENNIALS—We can do many others, not in this list. Some plants in our old list have been purposely omitted, owing to lack of demand. Others are so scarce that we dared not list them, but can still do a few plants. We have many other perennials in our Nursery Grown sorts. Also, have connections with extensive growers in these, and can do them in large quantities, splendid plants, at reasonable prices. Our chain of collectors, extend from coast to coast. Send us your wants to quote on.

HOPE DALE NURSERIES

J. W. GRIESEMER, PROPRIETOR

FERNS

These may be handled at any season, but handle best in Fall or early Spring. Where sent with tops on in Summer, cost of crating tops is added.

We can do many other collected shrubs. Also, we have a splendid line of NURSERY GROWN SHRUBS, in the ordinary sorts. Get our Descriptive Catalogue and Retail Price List on Nursery Grown Stock, if interested.

TREES—We have many carloads in the nursery, both Deciduous and Evergreens. Sometimes we collect many carloads in Wild Trees, too, especially Elms and Maples. These both do exceptionally well as Wild Trees.
